

## About us:

GastroAdvisor is building the first global recommendation platform for restaurants and dining venues based on blockchain Ethereum. GastroAdvisor connects restaurants and customers through FORK token, rewarding users for their contributions and creating a reliable platform for informations and reviews of restaurants around the world.

## Mission:

The mission of GastroAdvisor is primarily to help restaurant owners and users to improve their online experience and to introduce them to accept and allow payments of a consumption through Cryptocurrency. There are many problems in this sector because of fake reviews flooding the Web with a few solutions dedicated to restaurant owners and online existing gastronomies, to date Cryptocurrency as Bitcoin and Ethereum are exchanged and accepted at thousands of sites online, but you can hardly use it for daily expenses and real activities. GastroAdvisor is trying to make real use and payment in Crypto. Thousands of companies will be able to take advantage of the dedicated awards noting the online booking service and accepting payment via BTC, ETH, FORK.

## Problems encountered:

- No Specialization in the sector
- Overload of information
- Fake review problems
- Acquisition of new customers and online booking
- Limited Cryptocurrency acceptance
